

Dynamically disinfecting the air we breathe and the surfaces we touch

*with the combination of organic and natural
Hydroxyls and Ions.*

VEHICLE PROBLEMS

Emergency vehicles, such as **ambulances**, have to cope with a lot. The same vehicle is used to transport a variety of patients, including infectious patients. Maintaining a clean, and infection-controlled environment is a constant challenge, especially when the possibility of cross-infection from infectious patients is a significant concern.

Deep cleaning requires a vehicle to be off the road for a period of time, which is lost productivity and adds performance pressure to the rest of your fleet.

Traditional cleaning, disinfecting, and use of masking agents cannot control the spread of microorganisms, putting the health of the paramedics and the patients at risk.

AIRsteril by Fortress Air helps eliminate the spread of harmful microorganisms and the associated risks, minimizing the possibility of cross-infection.

MAINTAIN A HEALTHY, CLEAN & SANITISED VEHICLE

The AIRsteril Medical Vehicle Range is our solution to improving air quality, sanitising surfaces and eliminating odours in medical and emergency response vehicles. Our Medical Vehicle Range:

- Prevents cross-infection.
- Destroys mould and fungi.
- Targets bacteria and viruses in the air and on surfaces.
- Reduces chemical usage.
- Lifts hygiene levels.
- Eliminates need for masking agents.
- Extends time between cleaning cycles, reducing vehicle off road time.
- Sanitises all exposed surfaces.
- Removes embarrassing odours by treating the root cause.

**Virus, Bacteria and Odour control
vehicle hygiene at its best**

The Healthy Air Solution

DYNAMICALLY DISINFECTING THE AIR WE BREATHE AND THE SURFACES WE TOUCH

- Kills pathogens (bacteria, fungi and viruses including:
 - Common cold and flu.
 - COVID-19.
 - Influenza.
 - Stomach flu.
 - Legionella.
 - Methicillin Resistant Staphylococcus Aureus (MRSA).
 - Escherichia coli.
 - Klebsiella pneumoniae and Pseudomonas aeruginosa.
- Kills mould and mould spores.
- Kills odour.
- Removes Particulate Matter (PM2.5 & PM10).
- Removes Volatile Organic Compounds (VOCs).
- Safe to use around people, animals and plants.
- Offers continuous, efficient, 24/7 risk-free protection.
- Simple to install and cost-effective to run.
- Chemical and filter free. does not require expensive filter replacements e.g. HEPA filters.

AIRSTERIL IS

- Chemical free.
- Filter free.
- Independently laboratory tested.

BENEFITS OF USING AIRSTERIL CVX12 & CVX24

Eliminate Bacteria – Eliminate bacteria and viruses in the air and on all exposed surfaces.

Infection Control – Improve infection control and hygiene standards.

Cost – Cost effective to run.

Staff Morale – Proven to reduce absenteeism and labour costs.

Versatility – 12 or 24 volt power options available.
